WALL PANELS

WATERPROOF

The modern material of the Lamelio wall panels is waterproof, so you can successfully use them not only in the living room or bedroom, but also in the bathroom, spa or other rooms exposed to moisture.

Vasco
COLLECTION

T I M E L E S S
SHAPE

The Vasco collection is most often chosen by our customers due to the exceptional thickness of individual panel strips. The Vasco series is a form of simplicity that greatly facilitates interior design.

These panels fit within most arrangements. The panels are available in three wood shades. Due to the clear three-dimensional nature, they are very often mounted not only on the walls, but also on the ceiling, which perfectly delineates the zones in the room.

EASY TO CLEAN

Our wall panels will change your interior in a quick and simple way. Caring and cleaning them is also quick and simple, thanks to the material from which they were made.

Amber

COLLECTION

UNIQUE DESIGN AND
ELEGANCE

The Amber Collection is a proposal for people who appreciate unique design. Panels from this collection are characterized by original form that will introduce a modern accent to your interior. Wide slats with a delicate structure are divided by a thin recess, which adds lightness and elegance. The Amber collection consists of 4 colors: anthracite, beige, grey and white. Thanks to this, it can be adapted to various interior styles. The colors of the collection will suit both modern and classic interiors.

PAINT YOUR
PANELS YOURSELF

The best effect of painting wall panels from the Infinity collection will be obtained by spray painting using acrylic paints. By spray painting you will get a perfectly smooth painting surface. You can also paint the wall panels yourself with wall paint using a paint brush. Remember that when painting wall panels with a brush, the bristle structure will be visible on the surface.

FIREPROOF / WATERPROOF

Colette
COLLECTION

ACOUSTIC PANELS

STYLISH SOLUTION FOR A SILENCE

Colette panels were designed to be easy to use, they can be glued directly on the wall. Thanks to background made of a felt they can be easily cut to size and fit perfectly in the desired dimensions.

Panels have a wooden structure that imitates wood, which makes their appearance elegant and natural. Structure and choice of colors add visual warmth and cosiness, creating a unique atmosphere.

Wall panels of a Colette series have a high soundproofing properties thanks to the felt background. That makes them a perfect choice for those who look for improved acoustic in the room. Colette panels eliminate unwelcome sounds and noises.

Additionally, the surface of the panels is waterproof which makes keeping them clean much easier. This series has a trims that are covered with a decorative part on all three visible sides. This detail makes the panel aesthetic and harmonious on the each side. Panels Colette are 30cm wide, which enables faster coverage of the large surface when comparing to more traditional panels size. This improves time efficiency of the installation. Panels can be also easily cut vertically and by that they are easier to fit individual needs.

Colette series is a combination of functionality, aesthetics and easy installation.

humidity or a room with
standard humidity.

Glue
FOR PANELS

Assembly

OF PANELS

- 1** Prepare the surface on which the panels will be mounted. Installation on plastered walls, gypsum boards or wood-based materials is possible. If the wall is covered with wallpaper, we recommend that you disassemble it.

- 2** Use a circular saw or jigsaw to cut the panels to the correct length or width.

- 3** Apply mounting adhesive to the back of the panels.

- 4** The panels can be installed vertically or horizontally. In addition to the mounting glue, you can additionally use a stapler to attach the panels to the wall. Apply the staples to the edge of the panels' tongue, making them invisible.

- 5** When joining panels on the corner of the wall, groove the panels together.

- 6** You can use end strips to complete the finish look.
